DO NOT FORGET TO ACKNOWLEDGE THIS ADDENDUM AS REQUIRED BY THE SOLICITATION.

**JAMES C. SIMMONS, JR.
CHIEF PROCUREMENT OFFICER**

[END OF SOLICITATION ADDENDUM]

If Section 11.1 is for review only, will respondent need to submit a project schedule as part of the submittal?

Project schedule is not required for the RFQ submittal

Would you prefer respondent to include a tab page to separate each section for this submission?

Yes

Do we need a cover letter AND a separate submittal letter? Or can we include the information required of the cover letter within the submittal letter?

Yes, you can include the information of the cover letter within the submittal letter.

Does the project require the use of PCSWMM, or would the use of an alternative hydrodynamic modeling platform be acceptable? If PCSWMM is required, would the client accept a newly developed two-dimensional (2D) PCSWMM model?

PCSWMM is the preferred model for City of New Orleans drainage studies. Exploring other modeling software could be an option. 2-D PCSWMM model is acceptable.

Page 27, the fourth bullet of the DELIVERABLES section requires a deliverable of GIS files of pipes and culverts greater than 36". Is the intent to not receive GIS files of pipes and culverts less than or equal to 36"?

City of New Orleans will provide GIS files of all storm drain sizes within the project boundary. The > 36" pipe size requirement is for the infrastructure survey.
